

EM FOR VICE PRESIDENT

Media Part II: Instead of taking photos I'm taking care of YOU (not in a murder way in a nice way jeez)*

*An example of how banterous the exec emails will be when I write them

WHY ME?

After being on exec for a year, I've learnt about the workings of the club. Media isn't so different from Vice President – I have already demonstrated that I can be **organised**, **efficient**, and work well in a **team** with my fellow exec to effectively promote tour and sell out of tickets this year.

I've worked with the designers and video team from NUCO, a skill I can transfer to Vice President when emailing charities, working with the SU and talking to our members.

I am **passionate** about this club and I am ready to work hard to make an **inclusive environment** and **support** our members!

For me, Vice President isn't a second choice or a cop out from running for President – this is the role that my skills fit the best, as I have good **communication** skills, so I will work well with the President and will help my fellow exec by making sure that we have a running dialogue about what we are all doing and how we think we can improve to make Warwicksnow the best it can be.

MY IDEAS

• INCLUSIVITY

We're a club that might seem quite intimidating, especially to freshers - we already have T-Bar Tuesdays, but we need more actually sober socials, meet the exec events, and a bigger on campus presence – there is a club behind our big events like tour and Avalanche and many people don't know about us.

• TOUR

Christmas tour went well this year, but I want to support the new tour sec in building on this with more organised fun, a bigger push for Easter tour, and pressuring our tour company to do as much as they can for us.

• CHARITIES

I want to liaise with charities more to find what we can do for them, and make our causes and charities more evident to our members – clubs such as CMD always raise so much through their events so why can't we do the same?

MY AIMS

- **Support** my fellow exec and all members of Warwicksnow by making myself known as someone who truly cares and will listen
- **Attract** more members and have a stronger spectator presence at Kings and BUDs, of course in full fancy dress and a logoed marquee – we're more than just circles and tour
- **Build** a strong bond with the SU – we are a serious sports club who can train some fearsome warriors
- **Communicate** with other Universities to save money and organise events further than Varsity, and with Surf to organise a great Two Seasons ball well in advance.
